OFFICIAL PAPER COUNTY AND CITY.

THE INTELEIGENCE OF PARTIES.

Much has been said and written by a ertain class of people and so-called journalists of the intelligence of the republican party and the ignorance of the democratic party. These statements have been repeated so often that many have come to accept them as being true. On this subject the Chicago *Times re*cently contained an editorial which certainly successfully combats all such false statements. Following is a portion of the article in question:

the article in question:
During the republican domination there has been formed a class which is very distinct in its outlines, very offensive in its olaims and pretensions, and which is directly antagonistic to the principles of equality which are supposed to charmeterize our republican form of government. It is made up of men and women who have come to regard a republican as the moral and social superior of a democrat; who have reached the conclusion that the mere fact of being a republican carries with it a superiority of intellectual development, while the word democrat implies a being of a lower grade in morals and brains and one who is necessarily inferior to the other element in every desirable respect.

and the other element in every desirable respect.

So deep-sented is this belief on the part of the class referred to, and so emphatic are its members in the assertion of their superiority, that the condition has grown to be intolerable to those who, from conviction, belong to the opposition. In this city there are constant exhibitions of the existance of this species of caste, and which takes innumerable and irritating shapes. To say of a mant that he is a democrat carries with it in the estimation of the phariseos, a condemnation; it is a presumption of guilt which will require evidence to remove. To post a man as a democrat, in the estimation of the class under consideration, is the equivalent of saying that he is a man of intemperate habits, loose morality and not trustworthy. "Is it possible that you are a democrat,?" is a question not unfrequently sched, in a wondering, pitying, half-contemptures tone, by a republican of some citizen whom he has long known add respected, but of whose political tendes: cite he has known nothing until they are maddenly developed at the polls, or on some other political occasion.

"How is it possible that a man of

casion.

"How is it possible that a man of brains like Mr. Blank can be a democrat?"

was asked before the late election by the principal of a West division school, "Doesn't he know," continued the questioner, a man who has a high reputation for intelligence and knowledge, "that if the democrats get into power they will at once reinslave the African," pay all the rebel debts, and pension the rebel soldiers?" This man probably began in its party meaning has become a senitiment with him, and is in nosense are interest with him, and is in nosense a resultment with him, and is in nosense a resultment with him, and is in no sense a resultment with him, and is in no sense a resultment with him, and is in no sense a resultment with him, and is in no sense a resultment with him, and is in no sense a resultment.

convention.

This person is fairly representative of
the species of bestard aristocracy which
has grown up within the republican the species of bastard aristocracy which has grown up within the republican party. It believes that it has divine rights descending from a legendary period concerning which thiolds that the republican party freed the alaves and prevented distunce, while the democrate were enlisted on the side of the rebellion. Very naturally, believing these abourd untrutes; it arrogates to itself all the virtues of patriotism and thrusts on the democrate all the ndium of disloyalty.

absurd unfurths, it arrogates to itself all the virtues of patriotism and thrusts on the democrats all the addium of disloyalty.

A change is necessary to convince these self-righteous people that they are founding their caste upon a mistake. A change will teach them that all the honcaty is not confined to certain people who mistakenly fancy that they saved the union. It will show them that the administration of the government does not as an intrinsic right belong to men who happen to be labeled republicans. It would convince them, perhaps, that because a man was "loyal" a score of yeurs ago, he has not an instinable right to hold office, and to except the penitentiary after having been convicted of maladministration of efficial affairs. It might have the effect to teach them that the mere fact of being a republican does not of itself clothe one with intelligence and virtue, and that being a democrat does not per se, make a man a soundrel. It is possible that a few years of democration attains a discussion of the republican party; who have undertaken to construct of themselves a superior class. The time may come when the Black Jack Yattawa of the republican party may not be allowed to plead their party faith as an excess for murder; and when the Dorseys and others of the breed will be hanged for malicious killing, or sent to the penitentiary for robbery, the same as if they were democrats.

Sad Accident Which Befell an Adam County Youth---Killed by Core-

Newspepers have contained immunes able accounts of accidents which have occurred by the careless handling of fire rms but the warnings given seem to have little effect. The victim is buried and the next time his friends go out hunting they repeat the same experiment by which the friend lost his life.

A sad accident from the careless hand ling of the deadly gun occurred in Adams county last Saturday. A young man named John Arnold, aged 19 years, living in Preble township, had been out hunting and on his return home endeavored to discharge his gun. The gun missed fire for some reason and young Arnold examined it to see what was the cause. He found that the cap had been discharged and then, perhaps, he thought it possible that he had forgotten to load it. At any rate he did what hundreds of others have done and met the fute which is generally connected with such an experiment. Raising the gun to his mouth he blew into the muzzle when suddenly the gun was discharged and the entire charge of bird shot entered the unfortunate man's mouth. Death was almost instantaneous. ling of the deadly gun occurred in

For the benefit of those who may be suffering with rheumatism or neuralgis. I give you the following as my experience: I have suffered more or less with rheumatism for a number of years, also with general debility. For the last year the trouble has constan ly increased so that for a month I could not dress myself, could not get up from my chair without help. From my head to my feet every cord and muscle was stiff and sore. During this time I used various remedies, all to no purpose, and continued to grow worse. My attention was called to your Athlophorus; I procured a bottle of our popular druggists, Jones & Bryant, on the 22d day of January I commenced to use it. I took five doses, then slept till 8 o'clock a. m. I got up and dressed myself and walked out without a cana. I was astonished at the result—could hardly realize that it produced such an effect, I am getting to be an old man (72). I don't suppose it will make me a young man, but at will help the lamp of life to burn down calmly.

It is safe to take Brandreth's Pills at any time, but to get the best results they should be taken on an empty stomach, going to bed. It is well on the night you take them to est little or no supper. As no two people are affected precisely the same by a like quantity of the same medicine, it is difficult to determine the dose; and it is something which must be left to the discretion of the patients. We will say, though, the average dose for an adult is from four to ten, according to effect.

For constipution or dyspepsis, one or two taken every night will in a short time perform an absolute cure. It is well to take a purgative one or twice a month as a preventive of disease, and as these pills are entirely vegetable and are made with the greatest care, we know them to be the safest and most effective purgative ever introduced to the public. They have been sold in this country for over fifty years, and have in that time attained an unprecedented popularity.
